SEASONAL HONEY BOX

Our seasonal honey box includes three jars of honey harvested in the spring, summer and autumn seasons so you enjoy the unique flavours of the garden from three individual seasons. Each honey is named after a corresponding native pollinator blooming in our blue pollinator containers at Trinity Village. We have tucked in a couple of seed packets too from flowers that grow here on site. Added to that are instructions for starting your seeds, a pack of bee themed gift cards, and a small posy of our very own everlasting flowers loved by the bees & us too.

(3 x 190ml jars) **\$30**

GENERAL BLEND

After we have poured the individual honey for the Seasonal Honey Box jars, we blend the rest of the harvest together to create our General Blend of honey. Wholesome and yummy, it tells the tale of the gardens flower to flower, from spring to fall, all joined together in one amazing spoonful after another. Once blended in our largest vat, we pour two sizes of honey jars for you to enjoy.

Small (190 ml) **\$8**
Large (375 ml) **\$15**
