

The Floral Art Cart a.k.a. The Flower Cart

This is where the budding florist can really shine. Every tool you need to create a beautiful bouquet of blooms from Trinity Village Gardens is right here on the cart:

- clippers in the drawer
- vases on the shelf and
- water in the tank.

From spring to fall, with these tools you can venture to any of our gardens and clip a lovely bouquet of flowers for someone in our Trinity Village Community, including you.

The Flower Cart is located between the Care Centre and the Studios right where the red X marks the spot from May through the end of the season.

Here are the few rules of the Flower Cart:

1. If you can reach it from the edge of the garden, you may clip it
2. Cut flowers like a thief....I try for the back of the plant and right close to the main stem so no one notices I borrowed a flower
3. Put the tools back and tidy the cart when you are finished
4. Enjoy the flowers!!
