

## Wednesdays in Bloom

We at Trinity Village believe in joy. Home grown garden flowers are just the right expression of that kind of empathy and love.

We grow our garden flowers so everyone at Trinity Village can enjoy them in season. Some like them on the stem in the garden. Others enjoy them in a vase. And there are those get pleasure from giving a bouquet of flowers at just the right time like when you can't get to visit, or you want to say: "thank you", or share a thoughtful gift to uplift the spirit.

Did you know Trinity Village Horticulture offers a homegrown flower bouquet subscription? Every Wednesday morning during the summer we harvest just the right blooms and branches to create mason jar bouquets for every occasion. You can order a single bouquet or multiple ones over several weeks. You can order a set of bouquets to mark a special occasion.

Click the "[Order Flowers here](#)" button and follow the instructions on the form. If the button doesn't work, the subscription service hasn't started yet or has finished for the season. No worries, simply contact the Horticulture Manager to discuss your request.
