

# Trinity Village - CARE CENTRE -

March 4, 2024

## Visitor Policy

### Types of visitors at Trinity Village Care Centre

To schedule visits, please contact Leah MacDougall, Screening Coordinator 519-893-6320 ext. 237 or email [screeningcoordinator@trinityvillage.com](mailto:screeningcoordinator@trinityvillage.com).

**Essential Caregiver** - describes an individual who is a family member or friend of a resident or a person of importance to a resident.

Who is designated by the resident or the resident's substitute decision-maker with authority to give that designation. In the case of an individual being under 16 years of age, has approval from a parent or legal guardian to be designated as a caregiver.

Who can comply with all applicable laws including any applicable directives, orders, guidance, advice or recommendations issued by the Chief Medical Officer of Health or a medical officer of health appointed under the *Health Protection and Promotion Act*

Who provides one or more forms of support or assistance to meet the needs of the resident, including providing direct physical support such as activities of daily living or providing social, spiritual or emotional support, whether on a paid or unpaid basis. Upon caregiver request, resident/POA shall provide consent for caregiver(s) and have support added to the care plan.

Essential Caregivers can accompany the resident in the dining room to assist them with eating or to join in for a meal and for social gatherings.

Essential Caregivers are required to complete mandatory training upon first visit and then once a year.

Essential Caregivers need to sign in/sign out for every visit at the reception desk.

Provincial set limits have now been revoked. However, Trinity Village Care Centre will continue to limit visitors to 4 essential caregivers and/or general visitors at one time. If there are more than four visitors arriving at one time, we will ask that some of the visitors remain on the main floor, so not to overcrowd the Resident room/home area hallway.

**General Visitor** – describes an individual who is not an essential visitor and is visiting the home to provide non-essential services related to either the operations of the home or a particular resident or group of residents. This excludes children under the age of one.

**Support Person-** describes an individual who visits a home to provide support to the critical operations of the home or to provide essential services to resident. A support person must be identified at the time of scheduling the visit.

**End of Life (EOL)** – describes an individual visiting a resident receiving end of life care or imminently palliative care. They are not required to schedule a visit. There is no limitation to the timing of the visit. Visitors (Caregivers or General visitors) can stay as much as 24 hours for compassionate reasons. There is no limitation to the number of visitors allowed, however, only four visitors may visit at a time in the resident's room. If there are more than four visitors arriving at one time, we will ask that some of the visitors remain on the main floor, so not to overcrowd the home area hallway.

### **Children Visitors –**

Children of all ages are permitted to visit. Infants under the age of 1 are not considered visitors. This means they can come in to visit with caregivers/visitors and will not be counted.

### **Outdoor Visits:**

The seating provided outdoors may not be sufficient for larger groups; visitors may wish to bring their own lawn chairs. In case of large outdoor group gatherings with more than 6 visitors, please notify Screener Coordinator in advance so we can assist in the accommodation of space.

Available outdoor general visiting areas are in the Courtyard or outdoors on the property. These visits are subject to weather and resident wishes and preferences. In case of inclement weather (heat alert/warning, humidex advisory, rain etc.) outdoor visits will be cancelled. This decision is based on the MOHLTC June 2020. Guidelines for the Prevention and Management of Hot Weather-Related illness in Long-Term Care Homes.

### **ABSENCES:**

There are four types of absences:

1. **Medical absences** are absences to seek medical or health care and include:
  - outpatient medical visits and a single visit (less than or equal to 24 hours in duration) to the emergency department
  - all other medical visits (for example, admissions or transfers to other health care facilities, multi-night stays in the emergency department)
2. **Compassionate and palliative absences** include, but are not limited to, absences for the purposes of visiting someone during end of life.
3. **Short term (day) absences** are absences that are less than or equal to 24 hours in duration and include:
  - **essential absences** include absences for reasons of groceries, pharmacies, and outdoor physical activity

- **social absences** include absences for all reasons not listed under medical, compassionate or palliative, or essential absences that do not include an overnight stay

4. **Overnight/ temporary absences** include absences involving two or more days and one or more nights for non-medical reasons. It includes short-term and extended absences. These will require at least a week's notice for the home to prepare paperwork and medications.

### **Isolation and testing requirements for residents when returning from absences:**

Homes are not required to actively screen, test or isolate residents upon return from an absence unless the resident is symptomatic.

Any resident that is symptomatic is isolated under Additional Precautions and tested for Respiratory Illnesses.

### **Masking Update**

Effective March 4, 2024, visitors and staff are not required to wear a surgical mask when in the facility. However, as required in the Infection Prevention and Control Standard and the updated MLTC COVID 19 Guidance document, masking in non-outbreak situations in LTCHs continues to be:

- Required for staff, based on a point of care risk assessment before every resident interaction, and based on the return to work protocols; staff may consider wearing a mask during prolonged direct resident care defined as one on one within 2 meters of an individual for 15 minutes or longer; and
- Recommended for visitors and caregivers, but not required.

\* Visitors and Caregivers are to complete passive screening before entering the home. If a visitor is feeling unwell, we recommend that they stay home until symptoms have improved for 24 hours, 48 hours if gastrointestinal, including no fever.

## **Protecting yourself and protecting Trinity Village Care Centre**

To reduce the risk of transmitting infectious illnesses at Trinity Village Care Centre, visitors are asked to follow these guidelines:

- Participate in passive screening before entering Trinity Village Care Centre.
- Monitor for respiratory or enteric symptoms. Do not come to Trinity Village Care Centre if you feel unwell.
- Practice hand hygiene upon entering the building, before exiting and frequently while visiting. Hand sanitizer is available throughout the building.
- We recommend that all visitors continue to maintain a social distance of two meters (six feet). Chairs will be provided for visitors visiting in residents' rooms.
- Ensure any items brought for residents are clean and sanitized before bringing it to the room.
- To start bringing in your pet for a visit please submit a request <https://www.trinityvillage.com/Visiting-Pet-Application-TVCC.htm> or contact Program Manager, Maria Menounos ([mmenounos@trinityvillage.com](mailto:mmenounos@trinityvillage.com) )

- Should you want to bring in food or beverages for the resident, please contact: Krista McParland ([KMcParland@trinityvillage.com](mailto:KMcParland@trinityvillage.com)) to confirm that there are no dietary restrictions.
- If necessary, use the designated visitor's washroom on each floor.
- When visiting a resident in the home area, visitors will follow signage within the building.

## Education Requirements for Essential Caregivers

Prior to the first visit and annually thereafter, Essential Caregivers are required to complete training on how to safely use IPAC measures, including donning and doffing PPE, hand hygiene and respiratory etiquette. Trinity Village Care Centre will provide initial training, policy review and acknowledgement in person when becoming a Caregiver. Following the educational training your annual training will be available online through SURGE learning unless in person is required.

### Outbreak Protocol:

Even with robust safety measures in place, outbreaks may happen. In the event of an outbreak, Trinity Village Care Centre will follow the direction of Public Health. The following chart provides guidance on the types of visitors and when they may access the Home.

|   | <b>Support Worker</b> | <b>General Visitor</b> | <b>Essential Visitor/Caregiver</b>   | <b>Outdoor</b> |
|---|-----------------------|------------------------|--|----------------|
| Not in outbreak                           | Yes                   | Yes                    | Yes (4 visitors per visit)   | Yes            |
| Enteric/<br>ARI/<br>Influenza<br>Outbreak | Yes                   | Yes                    | Yes (4 visitors per visit)   | Yes            |
| COVID 19<br>Outbreak                      | Yes                   | No                     | 4 caregivers at a time or in the direction of Public Health.<br>Must wear full PPE | Case by Case   |
| Resident in isolation                     | Yes                   | No                     | 4 caregivers at a time<br>Must wear full PPE                                       | Case by Case   |

## Ending a Visit and Prohibiting Visitors

Trinity Village Care Centre strives to ensure that visits will be a positive experience for the resident and the visitor.

Trinity Village Care Centre has the right to end a visit if a visitor fails to adhere to the homes policy or the health and safety requirements. If the concern continues and negatively impacts the health and safety of the resident or staff, visits may be temporarily prohibited.

### Questions?

Please contact Leah MacDougall, Screening Coordinator 519-893-6320 ext. 237  
or email [screeningcoordinator@trinityvillage.com](mailto:screeningcoordinator@trinityvillage.com)

**We are all in this together. Thank you for your support.**

## Revisions

- September 2020- initiated
